CANDIDATE IDENTIFIER: FP-C01 · BLIND PROFESSIONAL RESUME

Professional Resume — HR Operations Specialist

- **Target Position:** HR Operations Specialist
- **Previous Employer:** Fictitious Enterprise FP-Previous / People Operations Team (120 Employees)
- **Employment Period:** July 1, 2023 – June 30, 2026 (3 Years Full-Time)
- **Blind Policy:** No photo, age, gender, address, marital status, or non-job personal background included
- **Key Toolkit:** Excel (XLOOKUP, COUNTIFS, Pivot Tables), Google Sheets (Access Tiers), ATS
- **Core Responsibilities:** Recruitment scheduling, attendance/payroll pre-audit, vendor billing reconciliation, HR data security

Professional Experience (STAR Methodology)

Experience 1 Recruitment Interview Logistics & ATS Status Management

• Managed end-to-end interview coordination for 36 interview rounds across 8 distinct job requisitions between January and March 2026.
• Recorded applicant progression milestones in ATS; categorized schedule change requests by request date, documented justification, and confirmed time slots.
• When interviewer calendar conflicts arose, re-checked available windows with applicants and confirmed substitute interview slots proactively.

Scope Boundary: Did not make final hiring/rejection decisions, did not lead ATS vendor purchasing/procurement, and did not calculate overall hiring conversion metrics.

Experience 2 Monthly Attendance Pre-Audit & Payroll Discrepancy Tracking

• Audited monthly close datasets for 120 employees in April 2026, catching 7 missing punch-ins and 3 duplicate clock-in records before payroll cutoff.
• Reconciled raw biometric records, approved PTO logs, and manager certifications; logged formal approvals and timestamps before handing data to payroll accountant.
• Never arbitrarily adjusted time entries without employee verification; did not process direct salary wire transfers or tax withholdings.

Scope Boundary: Role strictly restricted to pre-audit data verification; final payroll disbursement approval resided exclusively with the Finance Department.

Experience 3 External Vendor Billing Audit & Settlement Reconciliation

• Audited 48 billing line items in May 2026, identifying 2 canceled contractor software seats that were erroneously billed by an external vendor.
• Cross-referenced vendor contract cancellation terms, service usage reports, and cancellation request timestamps; secured corrected invoice from vendor.
• Transferred reconciled audit package to finance department after internal verification.

Scope Boundary: Focused on discrepancy detection and billing corrections; did not negotiate enterprise contract unit rates or grant payment authorization.

Experience 4 HR Census Data Governance & Sensitive Privacy Access Control

• Standardized monthly active headcount as 'employees actively employed on the final calendar day of the month'; embedded baseline snapshot dates on all reports.
• Audited maternity and parental leave records, restricting field access strictly to leave type, start date, and end date across only 2 HR operators and 1 executive approver.
• Shared only operational calendars with business managers; excluded medical diagnosis details, family composition, or pregnancy plans from all shared records.

Scope Boundary: Did not author enterprise-wide data privacy policies or design company-wide application intake forms.

Experience 5 Excel Pre-Audit Model & 58% Monthly Close Time Reduction

• Built an automated Excel pre-audit model combining XLOOKUP, COUNTIFS, and Pivot Tables to flag discrepancies and missing data across disparate logs.
• Reduced average monthly closing audit time from 180 minutes down to 75 minutes (58% efficiency gain) across consecutive quarterly cycles.
• Caught 1 unmapped leave code in February 2026 pre-distribution audit; updated lookup dictionary and added exception warning cells for unrecognized codes.

Scope Boundary: Observed results reflect pre/post internal audit comparisons across 120 employees; does not constitute a controlled academic experiment.

Skills & Experience Boundaries

• Tool Proficiency: Excel (Advanced XLOOKUP, COUNTIFS, Pivot Tables, Data Validation), Google Sheets (Role Permissions), ATS Operations.
• Boundaries: Does not possess software programming / script authoring experience; has not designed enterprise-wide executive compensation schemes.
• Motivation: Dedicated to ensuring 100% data integrity and audit-ready operational evidence for FP-Works' growing logistics platform.
